Shaker Oval Box Class

When: May 17-18th, 2025

9AM to about 2PM

Where: Roger McCoy's Shop

1514 W. Tenaya Way

Fresno, CA

Cost: $100

Instructor: Dave Sumners

What you need to bring to the class: Utility knife, pencil, small hammer, tape measure, combination square, awl (ice pick).

Material provided: You will be provided with two number five Shaker oval box kits. Each kit contains all the components needed to complete one box. You can lean more at John Wilson's web site (www.shakerovalbox.com). You'll have an extra kit to take home.

Class details: You will learn how to construct a Shaker oval box using kits provided. One kit is to be constructed in the class and the other later based on what you learn in the class.

The class is limited to 10 club members. This is a two-day class. Time is needed for the wood to dry in the form. The first day will be devoted to instruction and the initial forming of the box. The second day will be assembly of the box.

Bring a lunch so we don't lose valuable time.

Questions can be directed to Dave Summers at (559) 901-9052 or dTools64@aol.com

Registration is based on first come first served. Please send a check for class registration, along with an application off the web site, to the club's P.O. Box.
